TESTIMONIALS

“Working with Stan and the S.B. Lemons & Company executive coaching team provided me with insight and preparation that was invaluable. I learned a lot about myself, including strengths and areas of growth. Stan challenged me to level up and to recognize and celebrate my talents. With his assistance, I felt confident and overly prepared walking into my interview(s) before multiple panels, inclusive of the CEO/COO and an 18-person board.

Stan has proven to be a consummate and knowledgeable professional. I am glad to call him a new friend, and I highly recommend his company.”

TESTIMONIALS

“Having founded a 21-year-old professional theatre company, my team experienced a level of growth that was new to us all. I engaged Norbert to facilitate two board of director’s retreats, and to also work with me as an executive coach. He has the ability to cut through complex relationships and to help our team focus on critical issues that matter most to our organization. Norbert is an engaging facilitator, and a master “cat-herder.” I was amazed that in a room of board members with varying degrees of involvement, wealth, and personalities, he was able to get us all on the same page. As an executive coach, I find Norbert’s counsel to be valuable, supportive, and stern. I appreciate that he is able to be my advocate and keep me accountable at the same time.”

OANH NGUYEN
FOUNDER AND ARTISTIC DIRECTOR
ANAHEIM, CALIFORNIA

“Leading a non-profit advocacy organization that has over 40 member organizations, I engaged Norbert as my executive coach to help me strategize and work through numerous board, staff, financial and strategic issues. He was extremely thoughtful in his approach to the challenges my organization faced. Norbert also helped me design and develop an inaugural workshop series for non-profit Executive Directors. He facilitated this workshop series and created a space where these hard-working executives could collaborate and do deep dives of key issues in a supportive peer environment. Norbert has a unique gift to encourage creative conversations and at the same time keep us all accountable and moving forward.”
